DEAR STUDENT:

Everyone who comes to college experiences challenges and opportunities. Students who are questioning their sexual orientation or gender, or who identify as gay, lesbian, bisexual, queer, or transgender, benefit from connecting with others who are dealing with similar adjustments. There are a variety of organizations, events, and services for LBGT students and Allies at MSU.

Many students, including heterosexual students, come to the college with an interest in challenging heterosexism and genderism through education and activism. Other students want a safe, supportive place to hang out and have fun.

There is something happening on our campus for everyone, and if you can’t find what you want, the LBGT Resource Center may be able to help you make it happen. At the LBGT Resource Center, we are about providing opportunities for learning and leadership. We want you to have the best possible environment in which to live, learn and be empowered to make things happen as a student leader and throughout your life.

Sincerely,
The Staff of the LBGT Resource Center
